**" Increase your skin's elasticity  
with Egg complex! "**

## Egg Complex

### Egg shell Membrane

The egg shell membrane inside the shells of egg is composed of amino acid similar to proteins in dermis of skin. It helps to improve skin's elasticity and is an excellent ingredient to supply moisture through moisture control and maintain skin's health.

### Albumin

Albumin is a water-soluble protein contained in eggs, milk, plant tissues, etc., which is mainly extracted from egg whites and consists of 98% moisture, 10% protein and other saccharides. It is an ingredient that helps to maintain the skin clean by removing sebum, reducing pores, increasing skin's elasticity, calming, etc.

## Quret egg bubble Refreshing foam

When cleansing, a soft and rich meringue bubble is produced, so you can gently cleanse without irritating your skin, and it keeps your skin moist without making it dry even after cleansing.

As fine bubbles deeply cleanses the skin, it keeps the skin clean and pure by removing makeup residue, sebum and various wastes.
